

To whom it may concern,
I am a Navy Vet. I served in Kosovo, and deployed after Sept. 11th I am tired of the FCC trying to tell me what i can and can't listen too. I don't understand how you can burn the american flag and that is ok but people can't speak there mind on the radio because it might be offensive. I can honestly tell you that my vote will change if you don't And I will vote for someone who will find different people to do your job. I am tired of it, STOP it and worry about something else.

Douglas Ridley
